

The BENSON Plan

The Benson Plan

Report from initial survey into community response to the proposed vision and objectives.

A leaflet was created that introduced the vision and objectives of Benson's Neighbourhood Plan and a simple form offered the following responses:

I support the Vision and Objectives of Benson's Neighbourhood Plan

or

I do NOT support the Vision and Objectives of Benson's Neighbourhood Plan

We provided an opportunity for other comments - whether supporting or not. To keep responses simple the only details requested were names, address and email address (optional).

The flyers were distributed by volunteers 7-14 March, and promoted through local organizations, email and online.

To ensure accessibility the survey was available through physical flyers and an online survey.

The results have now been analysed and are:

Total responses: 339

Number that said "I support ..."	318	94%
Number that "said I DO NOT support..."	16	5%
Number that could not be interpreted	5	1%
